

## One Church In Two Locations: Living Hope Community Church of Dublin PA Announces Second Campus Opening at Former First Baptist Church of Doylestown

February 10, 2023

Living Hope Community Church has announced the grand opening of their second campus in Doylestown, PA. This is the first step in Living Hope's long-time goal of developing one church in multiple locations. The new campus location, formerly First Baptist Church of Doylestown, is located at 311 W State St, Doylestown, PA 18901 and is scheduled to open as Living Hope Community Church - Doylestown Campus this spring on March 5th. The first Sunday services at the new Doylestown Campus are scheduled to take place upon opening on March 5th at 9:30am and 11am. If you'd like to watch Living Hope's current services from their Dublin campus, they can be streamed online now at [www.LivingHopePA.org](http://www.LivingHopePA.org). The new campus will also have their services streamed online upon opening. All are invited and welcome to attend.

After several years of discussion and prayer, the multi-site or multi-campus model was affirmed by both congregations via a vote on March 20, 2022. 'One church in two locations' remains the vision behind Living Hope's partnering with First Baptist of Doylestown to rebirth the former church as the second campus of Living Hope Community Church, thereby further spreading the hope of Christ within the Doylestown community.

"We can't wait to turn on the lights again in this historic Doylestown church. We look forward to connecting with the community in meaningful ways as another neighbor on State Street. Our new Doylestown pastor, Titus Buck, a resident of our community, has both ministry and corporate experience that makes him a great fit for this new role. We appreciate the rich heritage of the church and the important role Doylestown has as our county seat. We can't wait to open this Spring! We're saving you a seat." - Pastor Eugene Miller

Since the affirmation by the congregations, the Doylestown campus has begun its multi-phase construction process, including the current 1.75 million dollar full renovation of the Auditorium (Sanctuary), the construction of a Café, and the remodel of the main lobby spaces. These upgrades are being done with the intent of creating welcoming, relational environments for the purpose of discipleship. Living Hope's 'Ripple of Hope Campaign' has raised over 80% of the funds needed for the current phase of construction with the goal of completing the project without any debt.

Both campuses will offer groups for men, women, young adults, students, and a full Children's Ministry during the 9:30am & 11am services. Living Hope is excited to also announce that the Good Beginnings Preschool and Kindergarten on their campus will remain an important part of the church and community for years to come.

Titus Buck recently joined the Living Hope staff in 2022 and will be the new pastor at the Doylestown campus. "I'm thrilled to be joining the Living Hope team as Pastor of the new Living Hope Doylestown campus. I would like to welcome all who are seeking or searching to come and experience a warm welcome and to encounter a message centered on the hope we have through Jesus Christ."

Upon the grand opening of the Doylestown location, the two campuses will have the same name, Living Hope Community Church, but will be differentiated by their geographical location, Living Hope Community Church - Dublin Campus and Living Hope Community Church - Doylestown Campus. The church welcomes you to the new Doylestown campus.

## ABOUT LIVING HOPE

Living Hope Community Church started in a local Bucks County barn in 1997 and then met in a school gymnasium for 16 years before finally opening their first campus in Dublin on December 22, 2013. The church's mission is to spread the Living Hope of Christ by making disciples of all nations. Living Hope lives out this mission through their model of Intentional Discipleship in Relational Environments with a Missional Mindset. The church currently has upwards of 1,500 guests in person and online and is excited to see God's work within their two campuses, the surrounding community, and around the world.
